**Developer Tools:** VS Code, Webpack.

**Database Management:** MySQL.

**Version Control:** Git, SmartGit, Linux.

**Software Development Methodologies:** Agile, Waterfall.

**Testing Technologies:** Jest with React Testing Library, Postman.

## Professional Experience

---

### CAREERS360 - Pathfinder Publishing Pvt. Ltd.

December 2021 – Present

*Module Lead (Frontend)*

*Gurugram, Hararyana*

- **Strengthened collaboration and communication** between Product, QA, and Design teams, aligning efforts with company goals and resulting in a **20%** increase in both revenue and operational efficiency.
- **Led teamwork** between Product, QA, and Design teams to align strategies and streamline processes, resulting in a **25%** reduction in time-to-market and a **15%** increase in overall company goals.
- **Improved application quality** and user experience by optimizing loading speeds and minimizing bottlenecks through code splitting, lazy loading, and efficient asset management.

*Frontend Developer*

- **Contributed to three major projects**, including College Detail Migration, User Dashboard, and Registration Revamp. Played a key role in both major and minor tasks in the CMS project, an in-house initiative at Careers360.
- **Led the integration of SSR and CSR methodologies** in a React.js environment, facilitating real-time data rendering that improved operational efficiency, allowing developers to push updates **20%** faster without downtime.
- **Proficient in using modern frontend technologies** such as HTML5, CSS3, JavaScript (ES6+), React.js, and Redux to build scalable, responsive, and user-friendly web applications.
- **Collaborated with backend developers to integrate APIs**, optimize page load speeds, and enhance frontend-backend communication.

## Projects

---

### College Detail Migration (CAREERS360 - Pathfinder Publishing Pvt. Ltd.)

May 2022 – Janaury 2023

- College View, College Listing, College Ranking, Course Page to Provide Accurate and updated information including the ranking of the colleges, qualifying exams, cut-offs and trends, important dates for admission and courses offered. (Tech-Frontend: React Server Side Project, Backend: Django Api).
- **Proficient in HTML, CSS, JavaScript, and ReactJS**, with expertise in React Hooks, conditional rendering, lifecycle management, event handling, and state management using Redux Toolkit.
- Conducted comprehensive API testing using Postman, ensuring **99%** reliability of endpoints, validating responses, and troubleshooting issues for seamless frontend integration.

### Registration Revamp(CAREERS360-Pathfinder Publishing Pvt. Ltd.)

July 2023 – August 2024

- I independently handled total integration part of Registration Revamp of whole careers360 website.
- Developed an interactive form tailored to career domains, encompassing Login, Signup, OTP Verification, and Profile Updates; utilized React for frontend and Django API for backend, streamlining user experience and boosting engagement by **40%**.
- Implemented efficient client-side rendering in ReactJS to improve user experience by seamlessly updating the UI without reloading the page. Leveraged React's virtual DOM to optimize rendering performance and enhance responsiveness in single-page applications.
- Revamped the registration process by integrating **Google Sign-In** for a streamlined user experience.
- Developed interactive user interfaces using React lifecycle methods, Hooks, and conditional rendering; integrated Redux Toolkit for robust state management in a project that reduced page load times by **25%** through optimized code.

## Education

---

### Lovely Professional University

August 2018 – July 2022

*Bachelor of Technology in Computer Science*

*Jalandhar, Punjab*

## Achievements / Awards

---

### Promoted as Module Lead(Frontend)
