Summary

Passionate **MERN** Stack Developer with hands-on experience delivering scalable web applications. Proven ability to work independently, collaborate with senior developers, and adopt industry best practices. Ready to contribute from Day 1 and add immediate value to your team with technical expertise and a proactive approach.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C/C++, SQL, Java

Frontend: React, Next.js, Redux, Recoil, Chakra UI, Tailwind CSS.

Backend: Node.js, Express.js, RESTful APIs, JWT, Socket.io.

Database: MongoDB, Firebase, NoSQL.

DevOps and Tools: Docker, Nginx, AWS EC2, Git, Postman, Figma.

Projects

ClubChat | *Node.JS, Express.JS, MongoDB, React, Socket.io, Chakra UI, Cloudinary, Docker.* [Live Link](#) | [GitHub](#)

- Developed a social media web app for interactions and real-time communication.
- Features are post creation, likes, comments, user suggestions, sound notifications and account blocking for safety.
- Added real-time messaging with **Socket.io** and image uploads with **Cloudinary**.
- Created UI with **React JS** and **Chakra UI**, featuring dark/light modes and **Recoil** for state management.
- Built backend with **Node.JS, Express.JS** and **MongoDB Atlas**, including **RESTful APIs** and **JWT** authentication. Deployed on **AWS EC2**, using **Docker**

G-Cart | *EJS, Node.JS, Express.JS, MongoDB.*

[Live Link](#) | [GitHub](#)

- Developed an e-commerce platform for electronics, streamlining the purchasing process.
- Added search, filter and sorting for easy product browsing. Integrated **Razorpay** for secure online transactions.
- Created an admin dashboard with reporting features for sales and inventory insights.
- Built backend with **Node.JS, Express.JS** and **MongoDB Atlas**, implementing **RESTful APIs** for product listings, user authentication and order management. Deployed on **AWS EC2**.

Mini Project

To-Do List (React Productivity Tool)

[Live Link](#) | [GitHub](#)

- Created a To-do list app with **React.JS** and React Material for adding, checking, and removing tasks.

Netflix Clone (React Frontend)

[Live Link](#) | [GitHub](#)

- Developed a Netflix clone using **React.JS** and **Firebase**, hosted on Vercel, allowing users to browse and view details of shows/movies.

Experiences

Full-Stack Development Intern

2023-2024

Prototype

Bangalore

- Built and deployed full-stack applications, managing all development phases independently.
- Participated in weekly reviews with senior developers, improving technical and analytical skills.
- Enhanced leadership and communication abilities through structured training sessions.
