- ✓ Java
- ✓ JavaScript
- ✓ NodeJs
- ✓ DSA

### FRAMEWORKS,LIBRARIES,DATABASES

- ✓ ReactJs | HTML/CSS
  - ✓ Bootstrap | Saas
  - ✓ MySQL | MongoDB
- Extras: Canva/Figma/Adobe Premier Pro

## EXPERIENCE

### Working as HTML CSS Web Developer

#### HTML | CSS | Appsgyser(For App Apk Building):

- During my college days in **2013**, I initiated and developed **Mywapzone**, a website dedicated to providing downloadable media content, including apps, songs, videos, and more additionally it has **Total page views around 50K+** at that time.
- For me it was challenging due to new era of apps and web development involving of Tech stacks like javascript frameworks **Reactjs** & Later **Angular** , etc Due to limited knowledge of coding i took a course in **TAP ACADEMY** Bangalore where i learnt Full stack web development i learnt **Java with DSA, Javascript , bootstrap,mysql,git,etc.**

## PROJECTS

- Spotify Clone (Front End technologies), To-do list(), Employee-Management-System(Java) - 2023**

1.Spotify Clone -

Created Spotify Clone using HTML/CSS/Bootstrap,Javascript.

2.Employee Management -

Made Employee Management System using Java ,MySQL.

**Mywapzone**

**- 2012**

#### HTML | CSS | Appsgyser(For Android App):

- Developed a web platform (**HTML & CSS**) for downloadable content (music, videos, images, Symbian apps) during school & college days. it has **Total page views around 50K+** at that time.
- And Later using Appgyser Help Built a Android App but due to modern apps trending i closed it back in 2018.

## EDUCATION & COURSEWORK

**2018 - 2022 | Visvesvaraya Technological University (VTU), Belagavi.**

- B.E - Civil Engineering
