Profile

Software Developer with hands-on experience in building scalable and efficient applications. Skilled in Java, Spring Boot, SQL, React, and MUI for creating robust backends and, responsive frontends. Keen about learning new technologies and optimizing performance to deliver secure, efficient, and user-friendly solutions.

Experience

Software Development Engineer -ABA Infotech , Noida August 2023 – Present

- Tech Used: JavaScript, TypeScript, Tailwind, React, Spring Boot, Hibernate, Flyway, MySQL, AWS.
- Built responsive and interactive frontends using React and TypeScript (TSX), achieving a 25% improvement in user engagement metrics.
- Developed a full-stack feature for catalog templates, integrating backend logic and a WhatsApp API to share catalogs, boosting efficiency by 30%.
- Resolved 100% of reported backend and frontend bugs, improved code readability, and ensured seamless integration with frontend by designing a robust database schema and implementing efficient error logging mechanisms.
- Diagnosed and resolved critical production bugs in the Admin and Customer Portals, reducing downtime by 20%.

Technical Support Engineer Intern-Microsoft, Bangalore April 2023 – July 2023

- Technical Training: Gained expertise in Windows, Azure, Networking, Active Directory, and Microsoft products, achieving advanced proficiency in cloud computing and IT infrastructure management.
- Customer Experience Culture: Gained insights into Microsoft's culture and customer experience best practices
- Achievements: Secured 3rd place in Aspireathon (AI-based competition) and presented a customer story showcasing strong communication skills.

Full Stack Web Developer Intern-High Radius, Hyderabad Feb 2022 – June 2022

- Tech Used: HTML, CSS, JavaScript, MySQL.
- Developed B2B Invoice Management System: Developed a system to streamline data processing, leveraging ML algorithms to predict key invoice dates, improving accuracy by 20%.
- Frontend Design: Created a responsive and user-friendly interface using Material-UI (MUI) components and custom CSS, enhancing user satisfaction by 25%.
- Database Optimization: Integrated MySQL to manage invoice data, implementing optimized queries for 30% faster retrieval and updates.

Education

Bachelor's Of Technology in computer science (Hons. Big Data Analytics) Sep 2019 – May 2023

- Chandigarh University (CGPA: 8.21)

Intermediate April 2019

- D.A.V. Public School , Nerul, Navi Mumbai (82%)

Technologies

Technical Skills: React, DSA, UI/UX, SQL, BitBucket, Java, Jira, Figma

Tools Frameworks: AWS (S3 Bucket, EC2), Spring Boot, Spring JPA, Git, Postman

Course Subjects: Operating System, Computer Networks, Object Oriented Programming, Database Management Systems
