

# Chandan Chauhan

## Software Developer

Ahmedabad, India | Ph: (+91) 8933815141 | [chandanmau2018@gmail.com](mailto:chandanmau2018@gmail.com) | [LinkedIn](#) | [GitHub](#)

### OVERVIEW

Software Engineer with over 1.3 years of experience and proficiency in Software development . I am a passionate and results-driven software developer with a strong foundation in building high-quality, scalable applications. With expertise in Java, JavaScript, React JS, and Spring Boot, I enjoy working across the full stack to solve complex technical challenges and deliver efficient, user-friendly solutions.

### SKILLS

**Programming Languages:** Java, JavaScript, HTML, CSS.

**Frameworks and Tech:** ReactJS, Spring, Spring Boot, SQL, REST API Architecture, JPA, JUnit, Mockito, Bootstrap

**CS Fundamentals:** OOP, DBMS, Full Stack Web Development.

**Soft Skills:** Problem Solving, Self- learning, Presentation

**Other Skills:** Git, GitHub, Linux, Docker, Kubernetes, Datatables

### EXPERIENCE

#### Varuni Systems Pvt Ltd

Software Developer

Ahmedabad, India

Sep 2024- Oct 2024

- Architected and engineered a comprehensive blog application featuring a highly intuitive and interactive user interface. Leveraged Vanilla JavaScript to develop dynamic front-end functionalities, ensuring responsiveness and an enhanced user experience
- Designed and implemented a scalable and normalized database schema utilizing PostgreSQL to facilitate efficient data storage and retrieval. Integrated DataTables for advanced tabular data visualization and management, offering real-time sorting, filtering, and pagination capabilities.

#### Sterlite Technologies Limited

Graduate Engineer

Pune, India

Jul 2022- Jul 2023

- Developed a robust RESTful API using Java Spring Boot to enable seamless backend functionality and data communication. Built and deployed an interactive front-end using React, creating a complete full-stack web application
- Utilized MySQL to design and manage a relational database for efficient and secure data storage and retrieval.
- Expanded knowledge in networking technologies, including IP addressing, DNS, and network security principles, to ensure efficient application communication and infrastructure.

### EDUCATION

#### B.Tech, Electronics And Communication Engineering

Jun 2018- Jun 2022

#### Motilal Nehru National Institute of Technology Allahabad

Allahabad, India

- CGPA: 8.07
- Database Management System, AI and Machine Learning using Python, OOPS with Java, Web Development, Computer Networks etc.

### PROJECT WORK

- Online E-Shop Website using Spring Boot ,MySQL and React
- Blog Website using React , MySQL and Spring Boot
- Employee Management System using Spring Boot

### CERTIFICATIONS

- Java and Spring boot Full Stack Web Design with React Jan 2024
- Redhat System Administrator (RHCSA) Sep 2022
- Certified Kubernetes Administrator (CKA) Nov 2022
- Build a Java REST API with the Spring Boot Framework Jan 2024
