Profile

A driven and proficient UI Developer with extensive experience in creating efficient and responsive web applications. Dedicated to delivering high-quality solutions that enhance user experiences, with expertise in modern UI technologies including HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, JavaScript, and React.js. Committed to ongoing professional development and continuous learning.

Professional Experience

07/2022 – 02/2024
Bangalore, India

UI Developer
HealthSignz Technologies Pvt. Ltd

- Created and integrated new features using React.js, adhering to modern best practices and enhancing user experience.
- Designed and implemented reusable components and front-end libraries for scalability and future use.
- Converted wireframes and design mockups into high-quality, maintainable code, ensuring alignment with project specifications.
- Improved component performance for a wide range of devices and browsers, utilizing React.js performance optimization techniques.
- Coordinated with cross-functional teams to ensure seamless integration of UI components with backend services and other layers of the application.
- Applied Redux for state management and followed Flux architecture principles to maintain application robustness and scalability.
- Implemented and managed RESTful APIs to connect frontend interfaces with backend services.
- Utilized build tools such as Babel, Webpack, and NPM to streamline the development workflow and ensure efficient code compilation and bundling.
- Managed code versions and collaborated with team members using Git for source control and code management.

Skills

HTML5	CSS3
SCSS	JavaScript
jQuery	Bootstrap
Tailwind CSS	React
Figma	

Achievements

Improved Application Performance
Successfully optimized loading times by 40% for a major web application by implementing code-splitting and lazy loading techniques, enhancing overall user satisfaction and retention.

User Engagement Increase

Designed and developed a new user interface for a mobile application that resulted in a 25% increase in daily active users within three months of launch.

Award for Excellence

Received the Healthsignz Technologies Pvt Ltd "Employee of the Month" award for outstanding contributions to the redesign of the company's flagship product, leading to a 15% boost in customer feedback ratings.

Cross-Functional Collaboration

Led a team initiative that fostered collaboration between design and development departments, streamlining the workflow and reducing project delivery time by 20%.

Personal Projects

My Portfolio ⬀

- Developed a responsive web application using React and Tailwind CSS, ensuring a seamless user experience.
- Created scalable, maintainable components with Tailwind's utility-first approach, adhering to modern development standards.

Taskmate ⬀

- Built **TaskMate**, a to-do list app using React and Tailwind CSS, with features for task management and completion.
- Designed a modern, responsive UI with Tailwind's utility-first approach for scalability and user efficiency.

Shopmate ⬀

- Developed **ShopMate**, a responsive e-commerce platform using React and Tailwind CSS, offering seamless product browsing and shopping.

Cinemate ⬀

- Developed **CineMate**, a React and Tailwind CSS-based platform showcasing upcoming and top-rated movies with posters and detailed descriptions.
- Designed a responsive, user-friendly interface to provide seamless browsing and an engaging cinematic experience.
